Subject: Chain of Custody for samples attached to E16620
Date: Monday, August 29, 2016 10:00:59 AM

Greetings Mr. Smalley,

I left a message on the number you provided this morning to get clarification on the Chain of Custody provided with the 27 samples delivered on 23 Aug 2016 with the FPN E16620. Specifically, the "Reason for Transfer" on the Chain of Custody was left blank. Additionally The "Sample Numbers" to be transferred on the first block notates "All" instead of listing specific numbers to be transferred. Please clarify to my through either email or by calling back what the reason for transfer is, and which specific samples you intended to transfer to the MSL. Please let me know if you have any questions or concerns

Respectfully,
Chelsea Warren, MST2
